Details about the tables:

Administrators:
This section stores information about Administrators, including their personal details and login credentials.

Users:
This section contains information about individuals who access the application/website through the online portal, as well as their login details.

Songs:
This section stores information about registered songs, including their categories, artists, and other relevant details.

Artists:
This section contains information about registered artists, some of whom may have songs registered under their name (while others may be registered without any songs).

Playlists:
This section stores data on all songs included in a playlist that is linked to a specific user.
